

Decision to introduce Courses on Theology, to lay Catholics, was a welcome, and much awaited opportunity to many, including myself.

What was a welcome then, it is now a very satisfying situation, both mental and spiritually. So, I say, as the understanding I gained, as a student of the Course of Theology, has enabled me to see beyond the surface of quotidian approach, set in me, as a routine church goer. Routine has guided, my prayers, my participation, my involvement; with regard to my spiritual status: and so on; ~~Course~~ Correctly it was stage managed equality.

The Course has dispensed me of this routine.

It has dressed my mind with spiritual realities before me as a member of Catholic Church.

This Course has positioned me before the responsibilities to be discharged, and the track I need to walk upon to meet the aim. Thus it guides me to manage the stages of my spiritual life as against the stage managed period of my life.

The desire, the goal, the direction, the ability to perceive, the spiritual realities is in the Grace of God I pray for it. And, to who reads these lines I request for prayers. Two or three prayers are more sufficient.

I end with thanks, for the organizers and the readers and participants of the Course
